AgriTech 2015 is the number one convention in Agro and Food technology in the Middle East. During the AgriTech the Embassy of the Netherlands in Israel welcomes you to the side-event on food waste to meet with representatives of private companies, government officials and experts from Europe, Asia and Africa. This event will provide you with a seminar on food waste and an opportunity.

Topics:

- Research & Technology development
- New market opportunities
- Policy development and international collaboration

Participants from the Netherlands will pitch their business case and there will be the possibility for one on one business matchmaking.
