

Increased productivity & profit derived from proper design

Eng. Ronen Feigenbaum
AlefBet Planners Ltd.

Presenting a Case Study related to the three former Dairy Farms, Yakum, Ga'ash and Shefayim, to the joined herd at the new Hof HaSharon facility and analyzes the herd's performances and profit before and after. The new farm was designed focusing on efficiency, cow comfort and welfare achieving a "win win" situation for both, cows and farmers.
